EDUCATION SUMMARY

- **B-Tech in computer science engineering** from **Netaji Subhas University** July 2027
- **Higher Certificate (PCM & Computer Science)** from **Karim City College** March 2023.
- **Secondary Certificate (ALL Subject)** from **Netaji Subhas Public School** March 2021.

TECHNICAL KNOWLEDGE

- **Programming Languages**: Java, C, C++, SQL, Python (basic)
- **Testing**: Selenium WebDriver, Cucumber (BDD/Gherkin), Manual Testing
- **Build & Tools**: Maven, Git, GitHub, Eclipse/IntelliJ
- **Web**: HTML, CSS, PHP
- **Databases**: MySQL

PROJECTS

Selenium Cucumber – Guest Checkout Automation September 2026 – Current

- Built an automation for the guest checkout flow on a WooCommerce-based demo store using Selenium WebDriver, Cucumber (BDD), and Java.
- Implemented BDD-style feature files in Gherkin covering add-to-cart, checkout navigation, billing detail entry, and order placement.
- Engineered robust handling for dynamic UI elements, including Select2 dropdowns, native elements, and plain text inputs for country/state fields.
- Used explicit waits (WebDriverWait) with custom conditions to reliably handle dynamic content and reduce test flakiness.
- Managed project dependencies and build lifecycle with Maven; implemented automated browser teardown using Cucumber hooks.
- Published and version-controlled the project on GitHub: github.com/itzFaizurRahman/Selenium-Project

AL-SADAF INTRUMENTATION AND TECHNICAL INSTITUTE WEBSITE October 2025

- Built and deployed a responsive website for a local technical institute using HTML, CSS, PHP and MySQL, hosted on Hostinger.
- Developed a certificate verification system with a password-protected admin panel to add and manage student certificates.
- Integrated a photo gallery, social media links and location map.
- LINK to website: https://alsadafinstrumentationtechnicalinstitute.com/

Java/C++/SQL Tutor for Academics September 2025 – July 2026

- Taught Java, C++ and SQL to 50+ students (Classes 8-12) across 3 local coaching centres.
- Designed a Java/C++ curriculum for Classes 9-12 focused on OOP and core programming concepts.
- Improved student test scores by 50%.
- Created targeted Java/C++ curriculum for grades 9–12, focusing on OOP and key concepts.

OTHERS

- **Language**: English, Hindi
